

environmental responsibility™

Environmental Policy

Miniature Precision Components, Inc. is committed to protecting the environment and health of our employees, customers and the global communities where we work and live. We recognize that by integrating sound environmental practices into all aspects of our business, we can offer world class product quality, cost delivery and service while conserving and enhancing resources for future generations.

Guiding Principles:

- Meet or exceed all applicable federal, state and local environmental laws and regulations, including customer or other requirements which interact with our environmental performance.
 - Ensure the protection of the environment, prevention of pollution and sound environmental resource management strategies are firmly embedded in all of our business strategies and culture.
 - Evaluate our activities and measure against established objectives and commit to continual improvement in all facets of environmental performance.
 - Educate, train and motivate employees to carry out their responsibilities in an environmentally sound manner and ensure that a continuous professional development strategy remains core to our business goals.
-

Dennis Konkol

President
